

SPOONER AT  
FLOWER'S GRAVE

The Wisconsin Statesman  
Orates at Dedication  
of Monument.

## EAST IS CHARMED

Pays Tribute to the Departed  
Statesman in Chosen  
Language.

## TALK WAS IMPRESSIVE

(Special A. D. Dispatch).  
Watertown, N. Y., Sept. 2.—United States Senator John C. Spooner of Wisconsin was the orator today at the unveiling of the monument erected in memory of the late Governor Roswell P. Flower. He was chosen from out of the multitude of statesmen who were friends of the departed as a special honor shown to his ability. His eloquence charmed the vast audience that was present and he added to his national reputation by the masterful way in which he handled the tribute to the departed. He said:

**Friendship's Eloquent Tribute**  
"I have come to you a stranger from a distant state," said Senator Spooner, "grateful for an opportunity to speak here a few simple but heartfelt words in tribute to the memory of Roswell P. Flower. It was my good fortune over a quarter of a century ago, to become acquainted with him and his associates in administering the affairs of a small western railroad, which long ago became a great and profitable system. Later I bore to him the sacred relation of lawyer to client, and later still I came into association with him in the legislative service of the United States, he representing a district in the Empire state, and I, in part, the state of Wisconsin in the senate. I counted as one of the honors and happy incidents of my life the fact that he early gave me his friendship, which continued unbroken until the angel of death rang down the curtain in his life and from the fields of human endeavor he summoned him home."

**Shaft Symbolizes Flower's Life**  
"It is a sweet and fitting thing that here in this beautiful city, among the people who were his neighbors and friends this city to which he came so often for rest and quiet and peace, there should be erected to his memory this statue, reproducing him in form and feature at once a triumph of the sculptor's skill and a beautiful tribute of loving hearts. It may well stand here when we shall all have passed away, an object lesson to your children and to your children's children in fidelity of every duty, public and private, in love of God and love of one's fellow man. I fancy that in years to come, when we have all gone to meet Him in the pink lights beyond the hills, and another generation treads these familiar streets, that motionless uplifted hand will arrest the attention of every passer-by, and from those mute lips will come to the hearts of the youth here a message as inspiring as the bugle call, as tender as the music of love, and it will be this, 'Be faithful; faithful to God, faithful to every duty; love your fellow man; help to bear their burdens; be charitable to their weaknesses; be brave in the discharge of every public duty, great and small, and be true always to the government of the United States which symbolizes all that is bright and glorious in our history, and all there is of hope in our future.'"

LAND FORCES REPEL  
ATTACK OF WARSHIPS

Mimic Battle Results in Victory for  
Coast Defenses Over Hig-  
gins's Fleet.

New London, Conn., Sept. 2.—A heavy battle was fought last night and this morning. The attacking fleet in attempting to force the race off Fisher's Island was repulsed with the probable loss of four battleships and four other ships by the explosion of submarine mines and the guns of Forts Miehle, Wright and Terry.

Fort Turnbull reports the receipt of a message from Fort Adams stating that an attack there began at 12:30 a. m., when three ships were sighted off Brenton's reef lightship. Fort Adams opened with mortars and big guns. General MacArthur, who left on the Kanawha at 11 o'clock, could not learn the result of the fight. The fleet is still in the sound.

From 10:25 until five minutes before 11 there was a continuous roar of heavy artillery from the guns on Forts Wright, Miehle and Terry.

The steady firing showed that all the heavy guns were in action, while the quick firing indicated that six-inch and rapid-firing guns were also used. Almost within a few minutes after the firing began news was received at headquarters that an effort was being made to force the race. It was apparent that only a part of Rear Admiral Higginson's fleet attempted to make the passage.

H. S. McGiffin left last evening to look over the tobacco crop in Vernon and Crawford counties and see what it looks like this season.

WHY FARMS ARE  
OFTEN ABANDONED

Prof. Milton Whitney Says It Is  
Because of the Soil and  
Climate.

Washington, D. C., Sept. 2.—Special—Prof. Milton Whitney of the agricultural department, who has made a study of the soils of this country, advances some interesting reasons for the abandonment of farms. There are many and varied reasons, including unfavorable climatic conditions, the deterioration of ranges in the west and consequent injury to the cattle industry, the development of new areas and new industries, unfortunate ventures made in bringing people from a distance to settle a region with which they are not familiar, and the scarcity of water.

**The Causes**  
"The cause of the deterioration of the lands in the south," said Prof. Whitney, "has been commonly ascribed to the exhaustion of the soil. The exhaustion of the soil is due, in my opinion to changes in the chemical and physical properties of the soil rather than to any actual extraction of plant food. A soil, to be productive must render annually, as the crop needs it, sufficient amount of food material in a form available to the plants."

"As a matter of fact, soil is a difficultly soluble substance, composed mostly of silicates and aluminates or difficultly soluble compounds of silica, alumina, potash, soda and lime in various forms. Through atmospheric agencies, largely, these compounds are rendered more or less soluble and more or less ready available to plants. A fertile soil is one in which the weathering effects come in at such times and to such an extent as to render available to plants a sufficient amount of this plant food. If that weathering does not take place and the food material is not brought into a condition in which it is available to plants, the land is as poor as though it actually contained no plant food."

in Last Night's At-  
tack, Easily.

## TWO ARE SUNK

Massachusetts and Brooklyn  
Are Counted Out by  
Judges.

## SUBMARINE MINES

(Special By Scripps-Mellie.)

New London, Conn., September 2.—The attempt of the navy to force a passage of Long Island Sound signally failed last night and while reports from the army officers are meagre, it is claimed that the Massachusetts and the Brooklyn are destroyed. The fire of defense was concentrated on these vessels and they were theoretically riddled with bullets.

**Many Took Part**  
Eight ships took part in last night's attack upon the fort, but nothing can be seen of them this morning. At seven last evening several of the fleet engaged Fort Wright but finally sailed away. Reports from Little Gull state that several of the retreating ships ran into submarine mines while attempting to escape and were destroyed.

**Vessels Destroyed**  
It is known that the Albatross and Puritan have been destroyed and it is thought that two others will be counted out by the judges. One man was killed and two wounded by a premature explosion at Fort Wright this morning.

MEN FIGHT ON  
FUNERAL CARS

Riot Occurs on a New York Trol-  
ley Car Over a Five Cent  
Fare.

New York, Sept. 2.—(Special).—A large party returning from the Zion Cemetery, Queens county, to this city, became involved in a riot, and about two dozen men, women and children were injured. The trouble started shortly after the three trolley cars had left the cemetery for Long Island City ferry. The conductor of one of the cars, finding it impossible to collect a fare from a passenger, brought the car to a stop. An argument ensued during which the conductor was struck on the head with a loaded cane. He called to the motorman while the passengers rallied around their comrade. Employees from other cars hurried forward, and a fierce fight ensued. Passengers who were not armed with canes drew towels, which some had brought from home to use in the cemetery. After a drawn battle the passengers resumed their seats and the car proceeded.

**Trouble Begins**  
The trouble broke out afresh when Calvary Cemetery was reached. This time the three motormen and conductors were reinforced, and got the better of the argument. Finally the cars were boarded again and reached Long Island City without trouble. There were a dozen women in the party, who were hysterical and had to be treated before they could resume their journey home.

SHOULD HAVE  
BEGUN WORK

Inspector King Is Not Pleased with  
the Delay on the Postoffice  
Building.

C. H. King of Racine, inspector of public buildings for the government is not at all pleased with the progress that Yeager & Son are making with the postoffice building. He can see no reason why the work should not have been commenced some time ago and that the excavating and the foundation should be completed this fall.

**Material Here.**  
Several car loads of material and timber arrived here some time ago but out side of that no move has been made by the contractors to push the work. Mr. King will call upon Yeager & Son and demand that they get the work under way this fall.

HIGHWAYMEN GET  
PRISON SENTENCE

Robbers of the Nelms Brothers Get  
Three Years in Wau-  
pau.

(Special To The Gazette).  
Madison, Wis., Sept. 2.—Three years and a half in states prison was the punishment meted out by Judge Donovan today to Joe Baker and Jim Bailey who held up the Nelms Brothers near Stoughton last Thursday night.

**Fifty Years a Minister.**  
The Rev. J. W. Chesley, rector of All Faith parish, Mechanicsville, St. Mary's county, Maryland, celebrated the fiftieth anniversary of his ordination to the ministry at All Faith, this old parish church, July 16.

EVANSVILLE FAIR  
NOW IN SESSION

Opening Day Promises a  
Larger Attendance Than  
Ever Before.

## CHILDREN'S DAY

Eight Hundred Little Ones  
Are Seeing the Sights  
Free.

## EXHIBITS ARE GOOD

(Special To The Gazette).

Evansville, September 2.—Today is children's day at the Rock county fair. Some eight hundred little ones are on the grounds enjoying all the sights of the largest fair that Rock county has ever seen. All the floor space in the buildings are filled with exhibits of the farm and the sheep and swine pens are overflowing with choice breeds of farm animals.

**Large Attendance**  
For the first day the attendance of thirty-five hundred is considered very large and all points to a very successful week. The entire number of paid shows, including the famous Waldo Buffalo's Indian village has been thrown open to the children. But one race was trotted this afternoon and that was between local horses. The best races start tomorrow and continue the rest of the week each afternoon.

**Many Cattle**  
The horse and cattle exhibit is also very good and much better stock is on exhibition than in former years. The judging and awarding of prizes will begin tomorrow. The poultry exhibit is also very fine and many choice breeds of chickens are shown.

TELLS OF SOUTH  
AFRICAN PLANS

Bishop Hartzell of the M. E. Church,  
Has Just Returned from  
There.

New York, Sept. 2.—(Special).—Bishop Joseph C. Hartzell of the Methodist Episcopal church, who has just returned from his sixth Episcopal tour as missionary bishop of Africa, has left this city for Chicago. "I am much encouraged over our mission work in Africa," he said. "In each of our missionary centers on both coasts we are developing industrial schools and churches among the natives, mastering their languages and developing efficient teachers and preachers. In Umfali, in East Rhodesia we are making a special effort to found on a large scale industrial missions among the natives."

**Political Outlook**  
Regarding the political outlook in South Africa, Bishop Hartzell expressed the belief that time and patience will restore harmony between the English and Dutch. "I think that confederation of the different colonies in South Africa will come," he added. "Cape Colony will probably move more slowly in the matter. Natal may also move slowly, but Orange Colony, the Transvaal and Rhodesia are very much in favor of confederation, with a central parliament. The population in this territory south of Zambesi, not counting the Portuguese of East Africa, and German Southwest Africa, is more than 800,000 white people and perhaps 7,000,000 of blacks."

INFURIATED FATHER  
FOLLOWS SON TO DEATH

Michigan Farmer Quarrels With Off-  
spring and Fires Five Shots  
Into His Body.

Muskegon, Mich., Sept. 2.—A dispute between David P. James, a farmer of Holton township, and his son John ended in the father killing the son, firing five shots into his body, and then wounding a neighbor with whom the latter was stopping.

Several weeks ago the son had a quarrel with the father and they separated. The son went to a farm to feed his horses. The two quarreled and the father fired two shots at the young man, both taking effect.

The wounded man was helped into his carriage by the housekeeper, but the old man relapsed his weapon and pursued the youth. He overtook him half a mile away, and when the son was discovered his body was in the brush, pierced by five bullets, and his horse was wandering along the highway.

The elder James then went to the Henderson farm and shot Mr. Henderson, but he is not fatally injured.

James then went to the home of his father-in-law, where his wife, who had left him about two weeks ago, was living. He fired two shots at the father-in-law, John Lewis, after the latter had refused him the privilege of seeing his wife. Neltner shot took effect.

James fled to the woods, and was captured late in the evening, when, driven by hunger, he went to a farmhouse for food. He is now in jail in this city.

FROST AND FIRES  
IMPROVE FLORIDA

As a Result, the Oranges Crop Will  
Be Better and the Houses  
Finer.

Washington, Sept. 2.—(Special).—"Florida is prosperous in every way," said Senator Tallaferrro today. "In two or three years the orange growers of my state will be sending as much fruit north as they did before the frost killed their groves. That frost was a terrible blow to all our people, the result has really proven beneficial, as the new orange groves have been planted south of the frost line, and a superior fruit will be grown."

**Jacksonville Rebuilt**  
"In Jacksonville, where I live, the results of the fire of a few years ago have been almost entirely overcome. We have built since the fire 2,900 houses in Jacksonville. The fire destroyed 2,600 houses. In almost every instance the new houses have cost twice as much as the ones that were burned. They are built in a way to make a widespread conflagration unlikely in the future. In the business section they are of brick, and in places where frame houses have been built they have metal roofs and are better built than the old houses."

**No Republicans**  
"I look upon our prosperity as existing in spite of the republican control rather than because of it. While I want to see the democrats gain as largely as possible throughout the country, I cannot but feel that a divided responsibility by having the democrats in control of the house would not be of service to us in the presidential campaign. In Florida I don't think there will be any republican nominees in any of the three congressional districts. The democrats will simply have a walkover. While there is a republican organization in the state, it does not put up candidates in off years. It will doubtless have candidates in the presidential campaign, as that has been the custom."

**STATE NOTES**  
While driving with his wife and child Col. Orlando Holwa of LaCrosse collided with a street car, smashing the carriage. No one was injured.

Members of the United Order of Foresters held a picnic at Waushara beach on Sunday. Milwaukee and many adjacent cities were represented.

On the day of the old settlers' picnic at Orms, September 5, cars will be run on the Oshkosh-Orms interurban line which has been nearly completed.

Carl Joltz, an employee of the North Western living at Reedsburg, was killed while returning from his work on a hand car. A freight train struck the light car.

Otto Bollman of Waushara was arrested on a charge of assault with attempt to kill made by Carl Braun, who asserted that the former attacked him with a knife.

A city street carnival at Sturgeon Bay opened Monday to continue for a week. Most of the attractions are the same which were at the Sheboygan Elks' carnival.

Burglaries which have been recently committed in Neenah were believed to have been the work of the same gang which operated in Oshkosh, Green Bay and Appleton.

The American Tobacco company has awarded the contract for a large warehouse at Watertown to J. G. Fendorf, who erected the building at Sparta for the same company.

W. A. Morris of LaCrosse has invented a power motor which he claims embodies the principles of perpetual motion. He will give a public demonstration on a large scale this week.

Labor Day was not generally observed at Fond du Lac, most of the factories running open as usual.

Topsy Turvy golf and blind handicaps afforded great amusement at the Milwaukee Country club on Labor day.

In a saloon row at Marinette on Sunday night, Charles Waldron and William Zeratsky both received bullet wounds.

Fred Doll, the fifteen year old son of Fred Doll of Milwaukee was taken with cramps and drowned in the Milwaukee river.

Over one thousand men participated in the labor day parade at Marinette, a prize being awarded to the best uniformed union.

Hundreds of tons of sand have been pumped from the bottom of Lake Monona at Madison and used to fill in the marsh property.

At Kenosha during labor day, collections were taken for the aid of the striking miners and a considerable sum will be forwarded to them.

W. Gray of New Orleans was robbed at Elroy of forty-five dollars by a couple of tramps whom he had befriended. They were arrested but refused to tell where the money was hid.

Christian Papke, of Racine, aged forty-five, while showing men how to operate a road scraper, was thrown over the machine and received internal injuries which may cause his death.

The Milwaukee Jahrmakkt committee today called on Mayor Rose to invite him to lead the grand march with the queen of the Jahrmakkt, at the grand ball on the opening night.

Engineer Ira F. Wallace was scalded to death at Fairchild on Sunday. He was a brother of Wallace Brothers, the circus promoters. The funeral will take place at Elm Claire on Wednesday.

Rev. Dr. A. M. Bullock of Watertown interviewed chief of police Block, of that city to attempt to learn upon whom to place the blame for the riot and egg throwing during the evangelistic services Saturday. He learned nothing.

WOULD MAKE  
ROSE SENATOR

His Friends Urge Him  
to Withdraw from Gu-  
bernatorial Contest.

## STAND FOR SENATE

Plan is To Dictate Nomina-  
tions and Toen Con-  
trol Party.

## POLITICAL GOSSIP

(Special A. D. Dispatch).

Milwaukee, Wis., Sept. 2.—Mayor Rose for United States Senator to succeed John C. Spooner, if the democrats come into power, is the cry among the local democratic leaders here today. The men who are pushing the move are actually in earnest and mean just what they say. They firmly believe that David Rose can at the present time dictate who shall be nominated for governor by the democrats and in this way place himself at the head of the democratic party in the state.

**Want Harmony**  
That claim that while Rose has far the lead in the state thus far that his nomination would be displeasing to many of the politicians outside of Milwaukee and that to cement the party together it would be best for him to withdraw and say who should have the nomination and then stand back for the senatorship should the legislature go democratic.

**Conference With Rose**  
It is understood that this plan has been broached to Mayor Rose and that he is considering it. It is known that a large number of his most intimate friends have been closeted with him for hours the past few days and that they have preached party harmony. The backers of this move are mayor's best friends who want to see his success and also the party's.

**Buckstaff's Question**  
From good authority it is learned that the democratic platform will be a direct slap at the republican party and their methods in the nomination of Prof. Cary, founded upon the charges made by George A. Buckstaff and not contradicted by the republican state central committee. The primary election law will be the stumbling block for the platform makes. In 1898 they adopted it and in 1900 they condemned it. What they will do this year is a question.

**Rose Claims**  
The Rose men claim 395 votes in the state so far which would insure his election without a doubt if any of the large unrepresented delegations joined the band wagon and rode with him. This claim is denied by the Jones men who say that many of the counties he claims are for Joe are unrepresented. Rose is also led by the Rose men, although it is not instructed. Dodge, Fond du Lac and Sheboygan are also claimed, but these are disputed and it is not probable that Rose has their support from present indications.

President John Mitchell of the United Mine Workers was given an ovation in the labor day parade at Philadelphia. In two addresses he made objection to "ownership by divine right" and "government by injunction."

About a dozen of Racine's leading society men were found in a gambling house which was raided by the police. They were playing for money and it has not yet been decided what to do with them.

PEACEMAKER GETS  
USUAL COMPENSATION

Miner Is Shot Dead for Trying to  
Reconcile Rivals for Girl's  
Hand.

Winfield, Colo., Sept. 2.—In a revolver and rifle duel on Main street here, Gus Sjostrom, aged 35, a Swede miner, was killed; Slim Amsdon, aged 35, also a miner, was shot through the left breast and mortally wounded, and Chauncey Bennett, a bartender, was shot in the groin and perhaps fatally wounded.

The shooting was the direct result of Amsdon's jealousy of the attentions paid by Andy Maloy, a young miner, to Amy Bitts, a 15-year-old girl with whom Amsdon was in love. Amsdon, armed with a rifle, went on a hunt for Maloy. He saw his rival on the street and fired two shots at him. Neither reached its mark and Maloy escaped.

Sjostrom later attempted to make peace between the two men. Amsdon resented the interference and the shooting followed. Bennett was an innocent bystander.

**A Jersey Feat.**  
It was facetiously said years ago that at a fire in a Boston hotel some of the guests made their escape on a sentence uttered by Senator Evans. The senator probably was no match for Secretary Payne of the New Jersey board of Charities and Corrections, who, in granting a conditional permit for a 200-foot extension, wrote two sentences, one of which contained 235 words. That was somewhat more than a word per foot.

## CITIZENS TALK ON SUNDAY SHOWS

BOTH SIDES OF THE QUESTION  
ARE TAKEN UP.

MANY FAVOR THE INNOVATION

Manager Myers Stands Ready to  
Please the Will of the  
People.

Do Janesville citizens sanction the Sunday theater? That the churches in the union meeting at the Court Street Methodist Church Sunday night do not was clearly shown by the resolutions which were passed by that body. A number of the business men say that they do not disapprove of the Sunday theater for a certain class of persons but would not go themselves. Others say that they are glad that the city has taken up some of the metropolitan ideas, and that it is possible to obtain some amusement on Sunday evening. One favoring argument that is advanced is that a large number of the working people of the city have no other night when they can see such performance save Sunday. Several of the prominent citizens of Janesville have expressed themselves on the subject as follows:

J. T. Wright.

Probably no one made so strenuous an objection to the new policy of the Myers Grand at the very outset as did J. T. Wright. On Sunday he made every effort possible to stop the performance, but finding his efforts unsuccessful he was obliged to sit back and allow the "Hottest Coon in Dixie" to hold sway. He telephoned Mayor Richardson at Lake Koshkonong to ask that Manager Myers be compelled to observe the state law forbidding such performances. The answer was that the mayor had no jurisdiction in the matter. Similar replies were elicited from Chief of Police Hogan, Judge Filleld, City Attorney Barpee, and others.

"I was checkmated at every hand. We must now take up the matter as citizens. It is a positive violation of the state law, and it is necessary that Mr. Myers be prevailed upon to keep the law. I do not mean that I have any opposition to Mr. Myers personally, but there is a principle that should be observed. The Sabbath is the day of rest, and the fourth commandment should be kept inviolate. The same fight was made here two or three years ago and was successful. Mr. Myers should be brought to realize that the sense of the community is that it is in entire opposition to the will of the respectable portion of the city. I do not feel that I can sit still and see these Sunday violations go on.

Dean McGinnity.

Dean McGinnity of St. Patrick's church made the following statement when questioned as to his attitude, and declined to say anything more definite. "My opinion is this. If the plays given on Sunday evenings were of a religious nature and gave religious impressions, I would consider them beneficial instead of otherwise.

Dr. Weiss.

"I do not see why any objection should be made to the Sunday theater. In Germany the people go to church Sunday morning and to the theater Sunday afternoon and evening. If any one were to try to open a theater on Sunday morning it would meet with immediate disfavor in that country. In the afternoon and evening many fine dramas are given, those of Schiller and Goethe, and every one finds them a great help and pleasure. I have not attended the theater in this country, but I believe the German people would give their support to the theater in this city on Sunday."

Rev. Churm.

Rev. Churm came out very strongly against the theater on Sunday. He wished it understood that whatever his views might be on the subject the present issue had nothing to do with the good or evil of theater, but merely with the question of Sunday opening.

"I do not see why the Sunday theater will be of any advantage to the city or to public morals. We do not make our objection to it because it is in opposition to the evening service of church. Our objections are based on the fourth commandment. The working man in Janesville leaves his work at six o'clock and if he wishes to attend the theater he can do it on other nights. I believe that all of the churches who were represented in the union service are opposed to the Sunday opening. I cannot say whether it will be made a test case to determine whether the law can be made to hold in this case."

P. L. Myers.

Mr. Myers says that his action is simply the result of numerous inquiries from working men and requests for such a change. "There are many men in this city who are unable to go on any other night. It is the same way in all the large cities, and Janesville is developing her factories so that the same case is present here. I have held out for a great many years, and I have only yielded because of the great number of requests that have been placed before me.

"I know that there is a law against it, but what effect does the law have in other parts of the state? Milwaukee alone would prevent the enforcement of the law. In that city if it were brought to a trial 90 per cent. of the people would stand against it. I want to be placed fair and square before the people in this matter, as I have always endeavored to enter to the public in every way. In taking this step I told one of the pastors that I would be glad to have any fair and square petition circulated that would express the sentiment of the people.

"There is nothing personal in this matter. I have been in the business too long to attempt to do anything that the people do not wish. This is not the same town it was fifty years ago, and new demands have

arisen. If the people here are not in favor of it they will not have it, but I have looked into the matter carefully and I feel positive that they do favor it. If you want other examples of towns that are doing the same thing look at Wausau, Green Bay, Milwaukee, Appleton which is the strongest Methodist city in the state, Oshkosh, Kenosha, and Watertown."

M. H. Whittaker.

Mr. Whittaker, who may be taken to represent a large number of the union laboring men of the city said: "A good moral play I would not object to on Sunday night, but I do not approve of a comedy, such as was used here for the opening night."

Thomas J. Morgan.

Mr. Morgan of Chicago, the speaker at the union celebration at Crystal Springs park was asked to give his opinion upon the subject. "I not only believe strongly in theatricals, but I also believe in theatricals on Sunday evening. In fact I often take occasion to go myself on that evening with my wife and children. The good theater simply presents human life as it is from day to day, and so why should Sunday be excluded from the days on which these every day affairs are to be presented.

"Moreover, throughout the week the laborer is confined to his work. By the end of the week when his day of rest comes he wishes to have some diversion which will make him laugh. For this reason I do not except the comedy from the list of plays which may properly be given on Sunday evening."

John W. Peters.

Mr. Peters touched a new phase in the question. By opening on Sunday night theater employees are forced to work who are otherwise entitled to a day of rest. In addition to this objection, he said that he did not at all favor the innovation.

"I do not see any use in it. I do not work myself on Sunday, and I do not ask my men to, unless it is absolutely necessary. There is no reason why a Sunday theater should be kept open in this city. All of the men who would go to the Sunday performance can just as well go another night."

Fritz Adams.

One of the actors with the Katie Emmet company, Fritz Adams a man of long experience as an actor, was asked his opinion, he said:

"It is wrong to use Sunday for such purposes in a city of this size. I have played a good many times on Sunday night in a town where it was the first occasion on which the theater had been opened on that night. The people of the town invariably make a strong objection, and they are right. When a city is thoroughly metropolitan such desecration of the Sabbath may be entered to, but it should not be done in a city like this."

Theater Will Be Closed

An alderman said this morning that the people need have no fear as to the continuance of the Sunday theater. An ordinance is now being drafted which will effectively put a stop to any further performances on that evening and it is believed that it will go through without opposition at the Wednesday evening council meeting. The city officers feel that the church people make up too large a proportion of the residents of Janesville to disregard their expressed disapproval of the new policy of the opera house.

## THE TEN PEERLESS POTTERS.

Claimed They Give the Greatest Aerial Act on Earth.

The Ten Peerless Potters, the Greatest Aerial Act on Earth, are one of the principle features of the Adam Forepaugh and Sells Brothers' Enormous Shows United this season. For several years there were only five in the Potter troupe, but they were so far in advance of all other aerialists that they headed the programme of these shows and the Barnum & Bailey Shows. The head of the troupe, Harry Potter, is rather an anomaly among circus performers. He began his aerial work in a college gymnasium and a liking for the work diverted him from the career as a lawyer, which his father had in view for him, to his present vocation.

Having an idea to be so clearly at the head of his chosen profession he conceived the act he is now doing. In order to perform it he had to have five more aerialists, two men, two women and a boy, to correspond with the five in his original troupe. Two of the men he secured in this country. One of the women was Anita Strick, the best trapeze performer of her sex in this country. The other woman was Marie Simon, one of the famous English family of aerialists, and the boy also came from England.

With these ten persons, including himself, he is doing an aerial act that simply beggars description. Nearly all the time the act is going on there are all ten of them in the air going through a marvelous series of leaps, swings, flights, somersaults, dives, etc. It is all known as hand-work—that is, they are thrown by each other not gaining their momentum from swings of any kind. It is by far the most difficult form of aerial work, but it is done with such consummate skill and grace that it appears much easier than it really is. It is certain that no one may expect too much from The Ten Peerless Potters when they see them here with the Adam Forepaugh and Sells Brothers Shows when they exhibit here, on Thursday September 4.

Old Arkansaw

A rail-road hold up, an express car blown to atoms by dynamite, a desperate fight for liberty, an Arkansas lynching party, the battering down of a jail door by a mob, an electrical fountain and a thrilling escape, are a few of the features to be seen in Fred Raymond's latest successful melodrama, "Old Arkansaw," which will be seen at the Myers Grand on Wednesday, Sept. 3.

## TALK ON PRICES OF COMING CROPS

MR. PHILLIPS EXPLAINS HIS  
REASONS FOR SAME.

MORE GRAIN, BETTER PRICES

Believes Figures Will Hold Up,  
Though More Is Produced.

Chicago—The knowledge that strong parties are long large quantities of September wheat, September corn and September oats and are likely to demand delivery of the grain, is making the bear crowd here very timid about selling short any more for next months delivery, but they do not hesitate to sell the future months at any cost. Notwithstanding all the short selling that has been done the price of wheat is now not very much lower than it has averaged for the past few months, taking September wheat at a basis. In the first week in June September wheat sold at 69½ cts. on the prediction at that time that we would have a very early and a very large movement of new winter wheat. It sold up to 71½ cts. before the middle of July, back to 67½ cts. on August 11th, and closed yesterday at 71½ cts. We have had the movement but the market is as high today as it was before it started. And now the eyes of every one is turned toward the Northwest. Those who have large quantities of September wheat bought appear to want it, but the bears tell us that September wheat is manipulated. If buying something with the intention of demanding delivery is manipulation, then it is to be recommended, for that is the fundamental principle of the business and I have always encouraged it, but the fact is cash wheat is worth a premium in nearly every market, and that does not bear out the assertion that September is manipulated.

If the short sellers did not have to fulfill their contracts, (injunctions or no injunctions), they would have the price of September wheat today at under 65 cents, but the truth is they dare not sell any more of it. As a rule September is a hard month to manipulate as we have new crops coming on the market during that month, but any one that has been in the trade any length of time will remember that in 1888 Mr. Hutchinson put September wheat at \$2.00. Visions of that stare the bears in the face every time they sell a five. During all the movement of winter wheat that we have had during the past two months, the visible has failed to increase any more mentioned. On July 1, we had in the visible 19,780,000 bushels of wheat; on last Monday 20,489,000 bushels less than 1,000,000 bushels increase. The exports since July 1 have not been as large as they were one year ago, but certainly larger than we were led to believe they would be, which is an evidence that much wheat has been sold to go abroad that we knew nothing about until it had been cleared at seaboard points. It is barely possible that during the next few weeks, or while the first rush of spring wheat is on, that the market will decline a little further, if it does it will be entirely on sentiment. The first movement of spring wheat will find a ready market. Millers everywhere especially in the Northwest, are bare of supplies, and no matter how large the movement may be, it will be taken care of and at higher prices than the futures are selling for here. I look for a higher market to follow immediately after this has been demonstrated, and it would not surprise me to see the lowest prices of the crop prevail between now and the end of September. You will remember that one year ago, about the last week in September, there started an advance in wheat which carried prices up to almost 85 cts. and it held over 80 cts. until in January, with a much larger crop to be marketed and supplies larger in all positions, but it is useless for me to go into details again and say why I believe that the price of wheat will average higher during the coming than during the past year, and much higher than it is now. I have said so much on this score in my different market letters during the past few months that I prefer to wait until the market shows an evidence of responding, or until the outside trade shows an inclination to come in as they did a year ago; but I will say that I believe those who begin to buy December or May wheat at around 67 to 69 cents respectively, and buy more of it on a scale down or up, will have an average when the turning point comes nearer the bottom than those who wait to buy at that.

It seems almost incredible that such an enormous amount of wheat is made into flour in the Northwest, but it is nevertheless the fact. The change to summer weather created a weaker feeling in the corn market and we may go through the month of September without any frost or damage to the crop. It is to be hoped we will, for a large crop of good quality will be a much more desirable one to handle than one of poor quality and will bring a better price. Judging from my advices, which I have received from every section of the country, I believe that the corn crop is generally overestimated. I believe that the final crop will turn out to be not over 2,250,000,000 bushels, but they have sold it down to under 40 cts. for May on the expectation of a crop of over 2,500,000,000 bushels. In a number of my previous letters I made mention of the fact that two years ago corn went out at 50 cts. per bushel, after we had raised six successive large crops of over 2,000,000,000 bushels, and certainly ought to be worth 40 cts. and I do not think you can make a mistake in buying May corn at under 40 cts.

September oats are in the tightest possible position. There are no standard or contract oats worth mentioning arriving here, and such as are coming in are bringing fancy prices, anywhere from 38 to 39 cents, and the

better grades of No. 3 White from which it is possible to make standard oats, are worth 35 cts. or more. So long as that condition prevails, there will be no comfort for the shorts in any month. Good white oats will be in demand all the year and at relatively higher prices than the futures are selling for. The American Cereal Company, who are the largest individual users of oats for manufacturing purposes, have been buying September, December and May oats here all the week. They fully appreciate the fact that it will be a hard matter to secure oats of good enough quality to fill their requirements, and to be absolutely safe, they are buying futures here, knowing that they will have to pay very high prices for good oats, and in having the futures bought they will be protected; if necessary, they can demand delivery on their contracts, which undoubtedly they will, especially when having them bought at 5 cts. per bushel under what the same kind of oats are selling for in the sample market. I find from my correspondence that there are a great many over the country that do not fully understand that trading in oats for future delivery here is now on a basis with white oats, termed new style, which alone should mean 5 cents per bushel or more to the price. There will be lots of poor oats, but you will readily see that it is a very dangerous proposition to be short for any month when it will be almost an impossibility to get the required kind. Mixed oats will no longer all the bill, or of course, the No. 4 White oats, and they can never be made to. The company who will have on the bull side of the futures of oats will be of the best, actual consumers, who are buying them as a business proposition, and you cannot go far wrong on that side. In fact, I would not be surprised to see every active trading month from now until May go out at over 35 cents, which makes December or May oats at around 30 cts. look very low.

Provisions fell of their own weight; they are too high and will sell materially lower before next spring. There was a big short interest in January pork, which on the late advance covered pretty well, but the one who sells provisions on every bulge, will, I believe, be rewarded with handsome profits. The proportion of our corn crop that will be fed will be greater than any crop for years past, and I believe purchases of May corn and sales of January or May pork even now will result very profitably. Since I first advocated this straddle, on June 28, pork has declined over \$2.00 per barrel, while May corn, on a comparative basis, has not declined one-half as much, meaning 5 cents per bushel net profit. I believe fully that much more can be made out of it.

Yours truly,

GEO. H. PHILLIPS.

## DUCKS ARE NOT VERY PLENTIFUL

Koshkonong Game a Disappointment  
to Many Hunters Who Ex-  
pected Shooting.

Duck hunters who went to Lake Koshkonong Monday expecting to get a few ducks met with a disappointment, as there were very few ducks to be seen and the hunter that secured enough for a mess was very fortunate indeed. There was very little shooting about the lake and taken altogether there was not over one hundred shots made around the lake. A good many ducks nested at the lake this spring and it was expected that there would be quite a number of young birds about at the opening of the shooting season.

People about the lake think that after the ducks had nested this spring the water raised and drowned out the nests so that only a few of the birds that nested in the higher ground hatched out any young. The way things look at present there will be no duck shooting of any account at Koshkonong until the northern birds are driven south by the frosts.

## PLEASING SHOW WAS PRESENTED

"From East to West" Entertained an  
Audience at the Opera House  
Last Night.

Merry Katie Emmett gave a pleasing performance last evening in her new play, "From East to West." The drama is of the wild and woolly mining type, with a lavish accompaniment of thunder, lightning, dynamite bombs and gun play. Through all of the disturbance Miss Emmett, breezy and vivacious, easily holds the eye of the audience. As Constance Brand, the slangy, unconventional Wall St. broker's daughter, as Billy, the "fresh" mining camp lad, or as Johnny on the spot, the hotel bell boy, her style is infallible.

Strong Cast  
The remainder of the company are all capable, and while no extraordinary ability is displayed by any one of them, they are capable of supporting their parts. Francis Murry, as T. Dooley, the illiberal octopus, ably upheld the comedy requirements of the drama, with the assistance of his buxom wife. Tryphene Dooley, played by Nellie Russell. Doré Davidson as Menendez, Fritz Adams as Robert Brand and Margaret Fleetwood as Ethel Lonsdale, plotting against her husband and foster daughter, were well fitted for their characters.

How to Convert Chinese.  
At last a sure cure for China's

heathenism has been discovered. A United States senator has suggested an amendment to the Exclusion bill providing that only Christian Chinese be allowed to enter America. The experiment was tried once by the Spaniards in the Philippines, with the result that 30,000 Chinese saw the light within a single week.—Japan Advertiser.

# The News From County Towns.

## CLINTON.

Clinton, Sept. 1.—At high noon on Wednesday Aug. 27th, at the home of the bride's parents in Hartford, Wis., occurred the marriage of Miss May Morgan and Rev. Wm. McKelvey of Monmouth. About twenty guests were present. Miss Minnie Morgan, sister of the bride, and Miss Katherine Tuttle of Clinton acted as bridesmaids and Karl Morgan the bride's brother and James McKelvey brother of the groom accompanied the groom. Mr. McKelvey is a graduate of Xenia, O. Theological Seminary and has just received his appointment to Shalok Puntab, India as a missionary. Mrs. McKelvey taught one year in the Clinton High school and has many friends whose best wishes will follow them to their new field of labor.

A telegram announcing the death of Mr. Frank Wilson of Greeley, Col., was received on Sunday by Mr. B. B. Markle which came as a shock to his many friends here where he resided until a little over two years ago when on account of his wife's health they removed to Colorado. Mr. Wilson was thirty nine years of age and was a very exemplary young man. About two weeks ago he was stricken with typhoid fever and his wife has the sympathy of many friends in this sad affliction in her western home.

Miss Bessie Olds attended the annual conference of the Y. W. C. A. in session at the Y. M. C. A. camp at Lake Geneva, a couple of days last week. Delegates were present from all parts of the United States. Thirty-three being Wisconsin representatives.

Of the class of '02 Miss Anna Wingear and Lettie Snyder will attend Downer college; Eliza Bennett the Business college, Beloit; Lillian Hahn and Lillian Barrett will train the young idea; while Messrs. Adams, Babcock, Bunker and Conley have about decided to go to Appleton University.

The past week has seen a great deal of threshing done. The grain is pretty fair in weight but colored some.

Mrs. A. G. Hamilton and Dr. Colver's families returned from Delavan Lake on Friday, also C. P. Drake and wife.

A wagonette containing a number of our people drove to Bergen to attend the annual fair of the "Dorcas" society.

The Misses Edna and Alice Smith of Snopiere and Nettie Boynton attended the United Workers' supper Friday evening.

## MILTON.

Milton, Sept. 2.—We clip the following in regard to an old time Milton "boy" from the Oxnard (California) Sun, and do not doubt the ability of Frank as a ball player for he used to be a crackerjack:

Frank H. True, who is the southern California manager of the Renters' Loan and Trust company, was in Oxnard a few days the first of the week, looking after his company's interests here. Mr. True, although round out his two score years and ten, doesn't look more than thirty and says he doesn't feel a day older than he did thirty years ago when he was touring the middle west capturing the blue ribbon in all of the athletic events of those days; in fact it was only last Christmas when he held first base for the Baldwin ball club, when he defeated the Oaklanders. He carries his age remarkably and attributes to a system of hygienic living an exercise which he has followed all through life.

The O. D. Hamilton W. R. C. visited Whitewater Friday and were entertained by the ladies of that place.

KNIGHT TEMPLAR KILLS SELF

Business Man of Springfield, Ill., a Supposed Suicide.

Springfield, Ill., Sept. 2.—The body of George J. Barrett, a well-known business man of this city, was found in a coal shed on his premises with a bullet hole over the left ear. He had been secretary of the Springfield City Savings and Loan association. A few days ago the auditor examined the books, finding the association sound and solvent, but since July 1 the books showed errors and tangles. Mr. Barrett was believed by his friends to be unbalanced. The errors, if they show a shortage, amount to very little and his estate is good for it all. Mr. Barrett was 52 years old, and leaves a widow, four daughters and three sons. He was a member of the board of supervisors, a Mason, and a Knight Templar.

TWENTY-FIVE NEGROES KILLED

As Many More Hurt in Excursion Wreck on Alabama Road.

Birmingham, Ala., Sept. 2.—The engine and six coaches filled with negroes on an excursion train coming to Birmingham from Greenville, Miss., were wrecked at Berry, Ala. H. Dudley, trainmaster, and twenty-five negro passengers were killed outright, and twenty-five more fatally hurt. Engineer Crook, white, was fatally hurt. Doctors from Birmingham, Columbus, Corona and all along the line are being sent to the scene.

MILNER DOUBLES THE HEAD TAX

British Chancellor Charges South Africans \$10 Per Year for Living.

London, Sept. 2.—Lord Milner, British High Commissioner in South Africa, has just issued at Pretoria a new ordinance in regard to the taxation of natives under which every male adult and every married native woman must pay an annual capitation tax of \$10. This is, roughly speaking, double the amount of the capitation tax collected under the Boer regime and it will doubtless lead to much murmuring.

CATALONIANIS WANT FREEDOM

Movement on Foot to Break Away From Spanish Rule.

Madrid, Sept. 2.—The government is greatly perturbed by the growth of republicanism in Catalonia. The governor of that province reports that clubs and newspapers are increasing rapidly with the avowed object of freeing Catalonia from the Spanish yoke. Many of these establishments have destroyed the Spanish flag which had been hoisted.

Shoot into Crowd of Dancers.

Hopkinsville, Ky., Sept. 2.—At a negro festival near Pembroke, Jerry and Dangerfield Ware, infuriated because Manager Frank Mattle tried to eject them from the grounds, emptied their pistols into a crowd of dancers. One man was killed and two wounded.

Wholesale Killing.

Salt Lake City, Utah, Sept. 2.—William Troutman of Snyderville, Utah, who recently was discharged from the insane asylum, brained his two daughters, fatally wounded his wife, attempted to murder the remainder of his family, and then killed himself.

Kipling Dodges Voters.

London, Sept. 2.—Owing to the annoyance caused by excursionists, Kipling Kipling will give up Rottingdean House and will occupy the beautiful old Jacobean House of Burwash, near Tunbridge Wells, in the prettiest part of Kent.

Sheriff Is Fatally Shot.

Stout City, Iowa, Sept. 2.—W. E. Strain, sheriff of Monona county, Ia., while trying to place Fred Carns under arrest at a farm near Whiting, was shot in the stomach by Carns and is fatally wounded.

Hotel Man a Bankrupt.

Milwaukee, Wis., Sept. 2.—George P. Gifford, the Oconomowoc summer hotel man, was declared a bankrupt by Judge Seaman, and the proceedings referred to Referee D. Lloyd Jones. His debts are \$75,000.

## MUST BELIEVE IT.

When Well Known Janesville

People Tell It So Plainly.

When public endorsement is made by a representative citizen of Janesville the proof is positive. You must believe it.

Read this testimony. Every backache suffered, every man, woman or child with any kidney trouble will find profit in the reading.

Mr. John Stelson, of Hotel Myers day clerk, says: "A physician pronounced my trouble kidney complaint. If the severe pain across the small of my back is any indication of the said complaint, I guess I had it. For two years I suffered with attacks, sometimes virulent, sometimes a dull grinding ache, which robbed me of considerable energy. I used in addition to doctor's prescriptions, several preparations said to be sure cures for kidney complaint, but up until I procured Doan's Kidney Pills at the People's Drug Co's drug store, I received little if any permanent relief. I took a thorough course of treatment prescribed by Doan's Kidney Pills and it cured me. Up to date I have not noticed any recurrence of my old trouble."

## DOINGS IN VENEZUELA.

There are doings down in Venezuela again and once more that little country is stirred up by warfare. The president of the country has departed from his capitol furiously to assail the common enemy concentrated in the vicinity of Puerto Cabello. Public war or the equivalent of it pervades the atmosphere of the entire country and the lives of foreigners are endangered. The Germans have landed marines to guard their interests and the United States has a warship there to do what it can to keep the peace. The revolution has gained in strength and audacity since the martial Castro took the field and appealed to the Gods of battles to take up his cause and let the right prosper over might. Those opera bouffe wars are funny to the casual observer. The ragged soldiery and the manner in which the pompous officers command make the whole warfare seem like some act taken from a play not a stern reality. The revolutionists hold Barcelona and the end of Castro power may be near at hand. In fact, he has not been heard from since he drew his mighty sword and set off at the head of his rabble to stem the popular uprising against his rule. He may be defeated and flee the country as so many South American leaders have done before him. Then there will be a new leader and later another war.

## OUR CROPS.

Whatever else may happen, whether a republican or a democratic governor is elected, the state of Wisconsin and the country at large will be blessed this year with one of the greatest grain crops in its history. A rough estimate made by the government experts place this year's yield at 646,500,000. This is about 100,000,000 bushels less than was raised last year but that was the largest crop ever recorded. The corn crop will be over a million bushels more than it was last year and of excellent quality. In both corn and wheat, if the present demand keeps up, the farmer will receive more than the ordinary prices for his products. No section has lost its crop and the benefits of great harvests and good prices are evenly distributed. A crop like this is the real backbone of good prosperity. Merchants are reported to be purchasing heavily in the west, the factories are busy, the railroads have more traffic than last year and generally the coming winter looks well to the farmer who may find additional cause for rejoicing in the fact that they are not compelled to burn hard coal at \$10 a ton.

## EXTRA SESSION.

It is reported that an extra session of congress will be called immediately after the elections in November. The president feels that there is much general work for congress to do, but the principle purpose in calling the extra session is to induce congress to take action on the Cuban question. The situation in the island is said to be just about as bad as it could be. A friend of the president declares that "Mr. Roosevelt is ready to sacrifice his nomination for the presidency rather than let the Cubans go into bankruptcy or revolution." But he won't have to do that.

Newspapers tell the story of the days' happenings, not the opinion of one man or one sect of people. It is a mistaken idea to think that because you do not care to read certain articles that others do not. What interests you as to church and literary doings does not always interest the workingman who wants the news of the day, of the theatre and police courts. The paper must voice the sentiments of all classes of its readers for it receives its support from all classes, not one alone. It would try to be fair and not neglect the theatre for the church nor the church for the theatre. These facts remembered may do away with un-

just criticism from men who should be broader than they appear.

The Rock County democrats nominated their county ticket last Saturday. Up to noon there was considerable difficulty in finding out who wanted the offices and even after the conventions were called, it was found that many of the towns had no representation, no caucuses having been held. While the republicans fought at their conventions in a good natured manner still the fights were generally on which delegation from which town should be seated not trying to find men to take the places.

The navy, as represented by Admiral Higginson's fleet, is at odds with its admiral over a reception that was tendered to the Duchess of Malborough while they were waiting to put to sea. They think that it is not good seamanship to mix women and war too closely. Had the Duchess been Magie Smith or some one of equal importance no such reception would have been given.

Duke Boris has gone to Newport. Well if he cannot have an Ape dinner given for him down there he is no sort of a fellow. They never do things by halves there and they can have two Apes at the same time. Lehrs and—well Boris will be there.

Our army and navy are having it hot and heavy these days. Who will win must be left to the judges but it is safe to say that the side that loses will be ready to lay the blame to something not on their own generalship.

Janesville did not have sixty thousand men in yesterday's labor parade but the several hundred odd were all well dressed, and the class of men that do honor to any city they make their homes in.

Senator Platt says that the coal strike will be over in a week. He also says that the idea of \$10 coal is preposterous. Evidently Senator Platt never heard of Janesville and its \$10 price.

Duck shooting has begun. The law is up and it is expected that from now on the daily papers will be filled with so-called accidents, the results of careless handlings of guns.

Jefferson county has split over the Leitch-Adams congressional fight, and one-half led by ex-Governor Hoard has bolted the convention in favor of the Dane county man.

Lake resorters who went home last week just because it was cold a night or two, will wish themselves back at their summer home if the present hot weather keeps up.

According to Governor Taft the Philippines may look forward to a state of freedom similar to that of Canada and Australia. That is if they are good and learn their lessons.

Poor President Palma. He deserves a better fate than he is receiving from those petulant Cubans. They will have a revolution down there soon and that will settle the whole cheese.

There has been nothing like automobile racing since the days of the Roman chariot races. Talk about excitement, just try one going at full speed.

Milwaukee is liable to lose its Rose if he is placed in nomination at the state convention as would now appear. That is in the fall snow storm.

Hill says that he will be on top after the New York state convention Nov. 30. W. J. Bryan says not. Who will win?

Teddy Roosevelt says that he wants to be as good a shot as his father. Young Teddy's trigger finger has a big job before him.

Rev. Sam Small is the last of the platform acrobats to disappear from the public horizon. Who next?

## PRESS COMMENT.

Birmingham (Ala.) Age-Herald: Instead of disarming the powers, let there be a general disarmament in this pistol-toting town.

Appleton Crescent: Republican leaders will hardly point with pride to the republican situation in Wisconsin as an edifying example of harmony.

Free Press: The big corn crop. It is expected, will be the means of reducing the price of beef, but will not effect the price of coal so far as we can see.

Madison Democrat: Some of the conventions are endorsing both Spooner and LaFollette. It falsifies the boy's version of the mathematical axiom that things like the same things like each other.

Milwaukee Wisconsin: Mr. Kleist has discovered that it is not every man that will accept your invitation for dinner that you can count on to stand by your political aspirations "first, last and all the time."

Milwaukee Wisconsin: The 2,000 excursionists of Winona and Trempealeau who spent a cold night on a steamer stranded on a Mississippi river bar are presumably all converts to the policy of river improvement.

Madison Journal: The yellow Journal seems to be Americanizing Cuba. A daily paper in Havana has again made a sensational charge against

Consul General Bragg to the effect that he is trying to keep capital from investment in the island.

La Crosse Morning Chronicle: An official of Springfield, Mo., committed suicide, and before doing so he wrote a letter ascribing his downfall to women and politics. But it is the mixture that causes the trouble. Men who take their politics straight generally keep straight.

Boston Globe: Considering how many great things are expected of Mr. Morgan, the question naturally arises. How could the country ever get along without him? And yet the country could.

Chicago Record-Herald: A Kentucky girl who has 150 offers of marriage has decided to remain single and devote her life to music. When she gets on the stage, however, she will probably regard marriage as a thing to be much dreaded.

Milwaukee News: It may be that LaFollette and Spooner have "mutualized," but reports that these two statesmen have embraced and called quits will hardly prove convincing until Your "Uncle Ike" begins to holler.

Eau Claire Telegram: There is talk of fight and there is talk of compromise in relation to the state of affairs which will probably be presented in the next Wisconsin legislature. That there will be a great chance for either is quite probable, modifying possibilities barred.

La Crosse Chronicle: The Mississippi river may be drying up and passing out of existence as a waterway, but the men who ought to know do not seem to look at the matter in that light. The largest steamer ever built for inland waters has just been launched at Dubuque.

Fond du Lac Commonwealth: It is one thing for the attorney general of the state to declare that women can vote for county and state superintendents, but another to make them go to the polls and cast their ballots. There are some of them, however, that have been praying for the ballot for many years.

Chicago Daily News: The New York theatrical company which went to the Vanderbilt summer home at Newport for a special performance probably feels more than repaid for its trip. The assembled members of the four hundred may have been amused by the company, but to think of the fun the company had of inspecting the four hundred.

Green Bay Gazette: The Northwestern claims that Oshosh is a model Sunday town because the people use the trolley lines and boats for excursions on that day. As to whether the position is well taken depends on the point of view. Some may possibly be found that do not look upon the matter in that way.

La Crosse Republican and Leader: John C. Spooner for senator and Robert M. LaFollette for governor are the chief political issues before the republican party this fall. According to the outlook the party will stand solid behind these men. Primary election and tax reform will receive their due measure of attention, and will be settled satisfactorily when the majority of the party gets through with them.

Milwaukee Journal: From appearances, it seems that Governor LaFollette has taken it upon himself to discipline Colonel Vilas for alleged disrespect shown the governor's plans for the university. He may find his discipline followed by effects, if he persists, quite different from his experience with all inspectors and the like with which he has had to deal. He may easily get a political snuffing such as he has never had before, if he goes to far. His own men gave way the governor's plan and he better go slow in trying to discipline any others. His peculiar ways go in his own camp—generally. But those outsiders are of a different makeup.

## OWNS THE ENTIRE PROPERTY NOW

JANESVILLE SYNDICATE BUYS COTTON MILLS

THE TOTAL PRICE IS \$60,000

Transfer Was Made Today to M. G. Jeffris, Carle, Sutherland, and Others.

A syndicate of Janesville capitalists among whom are L. B. Carle, M. G. Jeffris, George G. Sutherland and the Howe Brothers are now the owners of the entire plant of the Janesville Cotton Mills.

Some time ago M. G. Jeffris purchased the upper mill property, including all buildings, real estate and machinery for \$30,000. The property was deeded to Mr. Jeffris, but Messrs. Carle, Sutherland and the Howes were interested with him in the deal. They secured the property at about one eighth its original cost and have several enterprises in view to put into the buildings.

**Have Other Property**  
The same gentlemen have now purchased the lower cotton mills located in Monterey, together with all the machinery, water power and real estate for the sum of \$30,000.

**The Property**  
The property which they have purchased cost in the neighborhood of a quarter of a million dollars. It includes a main building, built of brick with stone foundations, two stories high, 50x255 feet, a machine shop and boiler room 50x80, besides an engine and boiler, room together with eight acres of land and 9,600 inches of water power above surplus water. There is also a 250 horse power A.P.S. compound condensing engine purchased three years ago and a comparatively new set of boilers.

The mill was erected about twenty years ago during the boom in the cotton cloth and cost the stockholders nearly a quarter of a million dollars. It was operated as a cotton mill with more or less success up to within a year and a half ago and then closed down. Since that time the plant has been lying idle and has been a loss to the stockholders.

**Price Cheap**  
The price paid for the property is less than one-eighth of its original cost and is one of the cheapest properties ever sold in this city. The sale includes the site of the old North mill at the south end of Monterey bridge and the adjacent property which includes valuable stone quarry interests.

**Only \$60,000.**  
Taken all together the syndicate has secured \$60,000 a property that cost to build in the neighborhood of a half million dollars. Just what the gentlemen intend doing with the property cannot be ascertained but they say that they are now figuring with several large business interests with an idea of getting them to locate here.

The new owners are all energetic business men and will see that the property does not remain unproductive any great length of time.

**Option By Wheeler**  
This is the same property on which W. H. Wheeler of Beloit secured a sixty-day option and allowed it to lapse.

READY TO DEFEND  
MONROE DOCTRINE  
STRONG NAVY A POTENT FACTOR

United States Must Neither Wrong Other Powers Nor Submit to Wrongdoing on Their Part, but Show Dignity in Its Dealings.

East Northfield, Mass., Sept. 2.—The most remarkable feature of President Roosevelt's tour was his speech at Proctor, Vt., in which he indicated his belief that the United States were prepared to fight for the Monroe doctrine. He was introduced by Senator Proctor. After thanking the people for their greeting the president said:

**Lauds Monroe Doctrine.**

"We believe in the Monroe doctrine not as a means of aggression at all. It does not mean that we are aggressive toward any power. It means merely that as the biggest power on this continent we remain steadfastly true to the principles first formulated under the presidency of Monroe through John Quincy Adams—the principle that this continent must not be treated as a subject for political colonization by any European power."

**Navy Is Necessary.**

"As I say, that is not an aggressive doctrine. It is a doctrine of peace. A doctrine of defense, a doctrine to secure the chance on this continent for the United States here to develop peacefully along their own lines."

"Now, we have formulated that doctrine. If our formulation consists simply of statements on the stump or on paper they are not worth the breath that utters them or the paper on which they are written. Remember that the Monroe doctrine will be respected as long as we have a first class, efficient navy and not very much longer."

**Does Not Threaten.**

"In private life he who asserts something, says what he is going to do and does not back it up is always a contemptible creature, and as a nation the last thing we can afford to do is to take a position which we do not intend to try to make good. Bragg and blustering in private life are almost always the signs of a weak man, and a nation that is strong does not need to have its public men boast or brag on its account. Least of all does a self-respecting nation wish its public representatives to threaten or menace or insult another power."

**Attitude Toward Powers.**

"Our attitude toward all powers must be one of such dignified courtesy and respect as we intend that they shall show us in return. We must be willing to give the friendly regard that we exact from them. We must not more wrong them than we must submit to wrong-doing by them, but when we take a position let us remember that our holding it depends upon ourselves, depends upon our knowing that we have the ability to hold it."

**No Idle Boasts.**

After speaking of the part Vermont has played in the country's history through Admiral's Dewey and Clark, the president concluded:

"Shame to us if we assert the Monroe doctrine and if our assertion should be called in question show that we have only made an idle boast, that we are not prepared to back up our words by deeds."

**SHOT DEAD THROUGH WINDOW**

Sylvester Murphy Killed at His Home While Reading His Mail.

Litchfield, Ill., Sept. 2.—While lying on a sofa reading his mail Sylvester Murphy, 50 years old, farmer, was shot and instantly killed. The assassin evidently stood close to the window, through which he fired. There is no reason why the attack should have been made, and the widow has no suspicion as to who the culprit is. Officers are scouring the country, but have little hope of accomplishing anything.

**To Enlarge Cudahy Plant.**

Stout City, Iowa, Sept. 2.—The Cudahy Packing company is to spend half a million dollars in enlarging its plant here. The beef and hog killing will be increased greatly, so that 1,000 cattle and 10,000 hogs can be slaughtered daily. A corresponding increase in the cold storage capacity will be made.

**Prisoners Escape Jail.**

Port Dodge, Iowa, Sept. 2.—Two men named German and Lawrence, held by the grand jury on charges of burglary and awaiting trial in the city jail, dug a hole through the east side of the building and escaped.

**Prof. Virchow Is Sinking.**

Berlin, Sept. 2.—Professor Virchow, the famous scientist, who is hardly expected to live, was brought here from Harzburg in an ambulance. Hopes are still entertained that the professor may rally.

**Beer Generals in London.**

London, Sept. 2.—Generals Botha, De Wet and Delarey have arrived from the continent. The rain was pouring in a deluge when they left the train and there was no crowd to receive them.

**To Help Colored Men Along.**

Rev. J. H. D. Huckle of Cambridge, Mass., is interesting himself in securing a building in that city to be known as "Emancipation building," to be used as a home for young colored men, and especially those attending Harvard.

TRAIN HELD UP; SAFE RIFLED  
L. & N. Passenger Train Robbed at Franklin, Tenn.

Nashville, Tenn., Sept. 2.—As the through north-bound passenger train on the Louisville & Nashville road, due here at 7:20 o'clock, was pulling out of Franklin, Tenn., eighteen miles south of here, the express car was boarded by two masked men. With a revolver at his head, Messenger battle was forced to open the outside safe, which the robbers rifled. Keeping the messenger covered with their guns, the men rode with him into South Nashville yards here, where the train slowed down and they disappeared. It is not known how much booty was secured.

ATTACK ON CHINESE MINISTER  
While Passing Through Coal Region

Minister Wu Is Stoned.

Hinghamton, N. Y., Sept. 2.—Minister Wu Ting Fang was attacked in a rapidly moving passenger train by an unknown person. Minister Wu had accepted an invitation to speak in this city at a meeting of workmen, and left Newark, N. J., under the escort of a labor leader. As he passed through the coal regions a heavy stone crashed through the window of his coach, showering glass around his head.

**Doing Good Work for His Race.**

The first colored man to be graduated from Amherst college was Charles H. Moore of the class of 1873. Since leaving college Mr. Moore has been engaged in educational work in North Carolina, his native state. For the past five years he has been at the head of the academic department of the agricultural and mechanical college for the colored race at Greensboro.

**All Told in One-Syllable Words.**

The following monosyllabic presentation of an old story was written by one of Boston's celebrated statisticians: A wife burnt her man's corpse. She put the ash in an urn on the best shelf in her best room. Her love led her to weep once more. An ice storm slanted the front steps. She took the ash from the urn and spread it on the steps to save the risk of slips by the man she loved while he lived. Thus she turned one man and made him earn his keep.

**A Deathbed Story.**

Here is a deathbed story, given, as far as I can recollect, in the words of a Roman Catholic Chaplain. The dying man asked his neighbor whether he thought he (the dying man) would go to Heaven. "No, lad, you won't," was the reply: "You'll go to hell, and you ought to be glad there is a hell to go to." Hearing that, the patient turned over, and died quite peacefully.—Pall Mall Magazine.

**Population of Sweden.**

According to the census of December, 1901, Sweden has a population of 5,175,225 persons, whereof 2,526,179 are males and 2,649,046 females. The increase of the population during the year 1901 was 38,757 persons (76-100 per cent), whereof 19,743 are males and 19,014 females. During said year the rural population increased from 4,032,490 to 4,053,414 persons, and the urban population increased from 1,102,951 to 1,121,814 persons.

## The Fad

Of the modern woman is health by exercise. It's an excellent fad, provided that it is always remembered that exercise cannot cure womanly diseases. Indeed, where such diseases exist exercise is apt to aggravate the condition rather than to help it.

The first step toward establishing the general health is to establish the local womanly health. Dr. Pierce's Favorite Prescription cures womanly diseases which undermine the general health. It establishes regularity, drives out inflammation and ulceration and cures female weakness.

When these are cured, backache, headache and nervousness are things of the past. The universal testimony of weak and sickly women, cured by "Favorite Prescription," is this: "It has made me feel like a new woman."

"My wife has used three bottles of Dr. Pierce's medicine, and I never saw such results," writes A. B. Haynes, Esq., of Aurora, Lawrence Co., Mo. "It was wonderful in its work. We had used lots of medicine, and had one of the best physicians in Aurora, but my wife got no better; we heard one pitiful groan after another, day and night. A friend handed me a copy of Dr. Pierce's book, the Common Sense Medical Adviser, and after reading the testimony of Dr. Pierce's successful treatment, and seeing that the cases described were similar to my wife's, I bought for her a bottle of Dr. Pierce's Favorite Prescription. Before she had taken all of the medicine she was up and helping to do the work. She has taken three bottles and is now about well. Has better health than she has had for years."

**Dr. Pierce's Pleasant Pellets cure constipation.**

## PELEE CLAIMS TWO HUNDRED

### TWO VILLAGES ARE DESTROYED

Sky Was Cloudless Just Previous to the Commencement of Activity, Then Great Electric Mass of Dust Obscured the Heavens.

Castles, Island of St. Lucia, British W. I., Sept. 2.—The British steamer Korona, which arrived here from Fort de France, Island of Martinique, reports that a terrible eruption of Mont Pelee occurred at 9 o'clock Saturday night, and that about 200 persons lost their lives.

Persons who reached Fort de France from the northern part of the island reported that the village of Morne Rouge, near the district previously devastated, had been destroyed and that Le Carbet, a village on the coast which was destroyed at the time of the great eruption, had been swept by a tidal wave.

**Loud Explosions.**  
A sloop from the Island of St. Vincent reports that Mont Pelee's crater is now quiet, but that the detonations during Saturday night were the loudest heard up to that time and the inhabitants were terribly alarmed.

Mont Pelee has been in almost constant eruption since Aug. 1. There was an enormous fall of ashes from the volcano the night of the 25th. There was a very severe eruption the night of the 28th, when the volcanic rumblings were heard at a great distance. The mountain burned fiercely that night and out at sea passing vessels were covered with ashes. The night of the 30th there were three separate eruptions.

**Hot Water Flows.**  
It is impossible to approach the ruined town of St. Pierre from the sea. The residents of the village of Le Carbet, on the coast, several times fled to the interior. Hot water poured down on Lorrain and Basse Pointe, villages to the northeast of the crater. Horrible detonations were heard, the ground rocked and quaked, and articles on tables were thrown to the floor.

The governor of Martinique has ordered every available boat to remove people from the coast villages to Fort de France.

**Eruption Is Sudden.**  
At 8 o'clock in the evening of last Saturday the sky was cloudless. Suddenly and without warning half of the horizon was obscured by a pitch black cloud of dust. This cloud was the center of most magnificent electric effects, the flashes of light surpassing the most elaborate fireworks.

Flames and flashes continued to burst from the cloud until nearly midnight. Columns of flame shot out of the crater of Mont Pelee to explode about the cloud in showers of balls of golden fire, which fell through the darkness in myriads of sparks. Three large aureoles were seen in the sky over the opening of the crater.

**Tidal Wave Terrifies.**  
A tidal wave rushed upon Fort de France and the terrified inhabitants fled in large numbers to the interior. The wave was not severe and did but slight damage.

At midnight of the 30th Mont Pelee was quiet; shortly after this hour there came another shower of ashes, accompanied by vivid sheet lightning. In addition to the 200 persons reported to have lost their lives at Le Carbet and Morne Rouge, many other persons are said to have been killed all over the northern districts of the island.

### BURGLARS SHOOT TO TAKE LIFE

Manager for a Boston Ice Company Held Up by Masked Men.

Boston, Mass., Sept. 2.—Because Albert R. Ives, a Revere manager for the Boston Ice Company, refused to put up his hands when ordered to do so by two masked robbers armed with revolvers, he was shot over the heart and the physicians do not think he can recover. The robbers helped themselves to all the cash in sight, a sum amounting to more than \$1,000, and then fled.

### SARATOGA'S FLORAL DISPLAY

Showing the Finest Ever Given at the Great Watering Place.

Saratoga, Sept. 2.—The decorations for the floral fete are rapidly being put into place. Saratoga will have a finer display than in any year previous. Broadway, down which will pass the parade, is being strewn with wires, on which the thousands of electric lights and lanterns are to be placed. Saratoga will present the appearance of fairyland.

### Numerous Progeny.

Hagerstown, Md., Sept. 2.—David Gossard died in this city, aged 75 years. He was twice married and the father of twenty-four children, twenty of whom are living. He is also survived by eighty grandchildren and eleven great grandchildren.

### Got Back the \$20.

Washington, Sept. 2.—A dog that recently swallowed a twenty-dollar national bank note paid the penalty with his death and his stomach was promptly forwarded to the United States treasury. The note was found and the bill redeemed.

## FORTY THOUSAND HERE MITCHELL

### GOD TREATS HIS OWN ALIKE

Strike Leader Hopes to See the Workmen Come into Their Own Through an Organization That Shall Embrace All Labor Bodies.

Philadelphia, Pa., Sept. 2.—An appeal to the wage earners of the nation for aid for the striking miners in their fight against the alleged "divine rights" of the employers was made by John Mitchell in his address at the Labor day demonstration here. More than 40,000 persons heard the president of the United Mine Workers of America tell the story of the anthracite miners' strike. The labor leader declared the present struggle the most important in the history of unionism, admitted that the miners must win or be crushed, and said the time is at hand when the workers of the country must take control of the reins of government.

**Makes Two Addresses.**  
After the parade a big picnic was held in Washington park on the New Jersey side of the Delaware river a few miles below this city. There were 40,000 persons in attendance. Here Mr. Mitchell made two addresses. His principal speech was made in the grove. Mr. Mitchell said: "The year that has just closed has been unprecedented in the growth of the trades union movement and the growth of independent thought and independent action, but with that great growth of the trades union movement new problems have arisen that will tax our greatest strength to solve."

**Two New Issues.**  
"We have this year government by injunction and ownership by divine right in their most accentuated form. If one of the most conspicuous of the capitalists of our country properly represents the sentiment and feeling of his assistants, then we must take it for granted that they believe that God in his infinite wisdom has given into their control all the resources of our country."

"I was taught to believe when a boy that He conferred no more power or favors upon one than upon another, and notwithstanding the declaration of the controllers of trusts, I am not prepared to abandon the teachings of my boyhood days."

### Would Save Children.

"Every year sees some struggle of the workers that stands out more conspicuous than other struggles. This year it happens that the coal miners of Pennsylvania are engaged in a life and death struggle for the right to live. The miners of Pennsylvania are fighting for the rights granted them by the laws of our country and as exercised by their employers."

"The miners of Pennsylvania are engaged in a life and death struggle trying to secure sufficient to take their little boys and little girls of tender age and frail physique from the mines and the mills and send them to school, where, as American children, they properly belong."

### Blames Operators.

"The struggle was not started until we had exhausted every conceivable conciliatory method known to mankind. The struggle would not have been continued—would not have been inaugurated—if the operators had agreed to mediation, conciliation, or arbitration. To all our overtures they turned a deaf ear, and the issue is now that we must win or we must be crushed. To win this struggle will require the assistance of our fellow workers and all generous citizens of our country. We are compelled to appeal to the working people and to the public in general to give up at least a small portion of their earnings to keep our people from starving."

### Workers to Solve Problem.

"I am one who believes that the time is not far distant when the workingman will have to solve the labor problem. I am free to say that my own views have been changed somewhat since this strike started. Nearly all well informed workers know that I had identified myself with every peace movement that I thought would help the workers. I am not prepared to say that they are failures, but they are failures as long as employers will not listen to reason and to truth. I look forward to the time when all wage earners will take their proper places in this movement. I look forward to the time when those who build the mansions will not have to live in hovels."

### Union of Unions.

"I stand for the solidarity of the trades union movement. I hope to see the time when no man who earns his bread by the sweat of his brow will be outside the ranks of his trade union. I look forward to the time when the workers of our country will take possession of their own country."

Mr. Mitchell's second speech was confined to an appeal for aid. The entire proceeds of the picnic, estimated at \$10,000, will be turned over to the miners' union.

### To Succeed Corrigan.

Rome, Sept. 2.—The Right Rev. John M. Farley has been selected Archbishop of New York by an almost unanimous vote.

### An effort that was sincerely designed

to stop the fight on Spooner would cause Stephenson to pull the strings of his purse in about three minutes. There will be a good deal of hugging and kissing, but Spooner will be fought to the bitter end.

### FATAL END TO AN ITALIAN FEUD

Quarrel Started in Sicily Winds Up in New York City.

New York, Sept. 2.—The end of a Sicilian vendetta, which had its origin in one of the little towns on the Italian island three years ago, occurred in the Italian quarter of the city and resulted in the probably fatal injury of one party to the feud and the arrest of the other. Giovanni Russo, thirty-one years old, is now in Roosevelt hospital in a critical condition, with a bullet wound in the head, and Angelo Lanterio, twenty-two years old, who had sworn to have his life after a quarrel years ago in Sicily, is in custody.
